EDUCATION

Year	Degree	Institute	CGPA
2023-2027	B.Tech Information Technology	GGSSIPU, New Delhi	7.6

EXPERIENCE

- Singaway** May 2026 - Current
Frontend Developer Chandigarh, IN
 - Built responsive web applications using React and Tailwind CSS for optimal performance and user experience
 - Deployed applications on Vercel reducing deployment time and ensuring cost-efficient hosting solutions
 - Developed reusable React components improving code maintainability and reducing development time
 - Collaborated with designers on UI/UX implementation ensuring pixel-perfect interfaces and functionality
 - Debugged and optimized frontend performance across multiple browsers for improved user experience

PROJECTS

- SSO Platform - Authentication System** 2026
TypeScript, Express.js, PostgreSQL, Node.js
 - Developed secure Single Sign-On platform enabling user login, registration, and session management
 - Implemented REST API endpoints for authentication with proper validation and error handling
 - Designed database schema in PostgreSQL for efficient user data management and security
- Form Builder Platform** 2026
Next.js, TypeScript, React, Tailwind CSS, PostgreSQL
 - Built full-stack form builder with drag-and-drop interface for dynamic form creation and customization
 - Implemented form validation and submission handling with real-time preview functionality
 - Used PostgreSQL for scalable data management supporting multiple form templates and responses

TECHNICAL SKILLS

- Frontend:** React, Next.js, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, Framer Motion
- Backend:** Node.js, Express.js, REST API, PostgreSQL, tRPC
- Tools:** Git, GitHub, Vercel, Socket.io, Redis
